## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. In view of applicant's amendments and arguments, claims 1 and 3-9, now renumbered as 1-8, are allowed.
2. The following is an examiner's statement of reasons for allowance: the closest prior art of record fails to disclose or teach a method for detecting pathogens attached to specific antibodies, wherein pathogens in a fluid sample flow through a channel and attach to antibodies immobilized on the surface of at least one pair of spaced electrodes, after which antibody coated beads flow through the channel and attached to pathogen already adhered to the antibodies on the electrode surface, and a change in impedance between from before pathogen binding to the electrode and after antibody coated beads bind to pathogen attached to the electrode is used to determine pathogen presence.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Claims 1 and 3-9, now renumbered as 1-8, are allowed.
